HOSPICE MEDICAL DIRECTOR CERTIFICATION BOARD

Hospice Physician Excellence. Quality Patient Care.

November 12, 2020

Dear Dr. Zehr:

Congratulations! On behalf of the Hospice Medical Director Certification Board (HMDCB), I am pleased to inform you that you have passed your 2020 certification exam. Your certification will remain valid through November 30, 2026. As a result, you are awarded the Hospice Medical Director Certified® (HMDC) credential and may use these initials following your name while your certification is active.

Your score report is availabe on the My HMDCB Certification Center and a certificate commemorating your accomplishment will be sent to the address listed on your application. This letter does not reflect verification, only the results of your examination. The HMDCB website will list your name as having earned your HMDC® in its online directory if an office/work address has been provided. I also encourage you to share your success by personalizing a sample press release available at www.HMDCB.org/resources.

Certificants must maintain their status of licensure to remain certified by HMDCB. In addition, any change in contact information should be updated at www.HMDCB.org under 'My HMDCB' for delivery of information regarding your renewal. Because of the need to be consistent in implementing our policies and fair to all applicants, we are unable to make exceptions to renewal deadlines.

Visit www.HMDCB.org and click on "Continuing Certification" to view the requirements to renew your certification. You must obtain 150 continuous learning points and we encourage you to complete the Professional Development Tool in the third year of your 6-year certification cycle. You will be able to submit your recertification examination application starting Summer 2025.

Please contact HMDCB at 847.375.6740 if you have any questions or need additional information. Congratulations again on this significant achievement!

Sincerely,

Tommie Farrell, MD FAAHPM HMDC
President
